Operator dashboard (React 19, Vite)
2D graph, 3D scene, incidents, telemetry, traces, detection engines
HTTP and WebSocket
Mapper server: Node.js, Express 5, port 3001
REST and WebSocket API
GraphStore and EdgeWeights
nodes, edges, targets, evidence confidence x dependency share
SSH, every 5 s
MetricStore (ring buffers)
TraceStore (connection events)
RiskEngine and CascadeEngine
risk, what-if, blast radius
Detection engines
Rules | ML | Hybrid, in parallel
RCAEngine and IncidentManager
ranking, cascade, fault type, runbook
Target host, nothing installed
Docker daemon
ps, inspect, stats, logs
Unmodified microservice stack
Socket tables
/proc/PID/net/tcp
Test tools
traffic-gen
Blind fault injector
load, kill, pause, limits
